INGRESS

Services are sets of Pods with a network endpoint that can be used for discovery and load balancing. Ingresses are collections of rules for routing external HTTP(S) traffic to Services.

MISSION 3

Amazon S3 luxxy-covid-testing-system-pdf-en-rv95 info

Objects (51)

Objects are the fundamental entities stored in Amazon S3. You can use [Amazon S3 inventory](#) to get a list of all objects in your bucket. For others to access your objects, you'll need to explicitly grant them permissions. [Learn more](#)

Copy S3 URI Copy URL Download Open Delete Actions

Create folder Upload

| | IN RANGE | OUT OF RANGE | |
| COVID-19 Antigen | | | KP |
| COVID-19 Antigen 06/10/20 4:25 PM | NEGATIVE | | |

A negative test result does not rule out the possibility of an infection with SARS-CoV-2. Serum or plasma samples from the early (pre-seroconversion) phase of illness can yield negative findings. Therefore, this test cannot be used to diagnose an acute infection. Testing with molecular diagnostic should be performed to evaluate for active infection in symptomatic individuals. It is not known at this time if the presence of antibodies to SARS-CoV-2 confers immunity to reinfection. False positive results for the test may occur due to cross-reactivity. The Siemens Covid-19 Total Antibody test was developed, and its performance characteristics determined by Siemens for the Vista 1500. The FDA has authorized this test for EUA.
